Quick Setup Guide for Gym Management System

Follow these steps to set up the Gym Management System on your local machine using XAMPP.

Step 1: Install XAMPP

1. Download XAMPP from [here](#).
2. Install XAMPP by following the on-screen instructions.

Step 2: Copy Gym Folder

1. Copy the Gym folder from your source.
2. Paste it into the htdocs directory of your XAMPP installation (e.g., C:\xampp\htdocs).

Step 3: Start Apache and MySQL

1. Open the XAMPP Control Panel.
2. Click 'Start' next to Apache and MySQL.

Step 4: Import the Database

1. Open phpMyAdmin by clicking 'Admin' next to MySQL in the XAMPP Control Panel.
2. Go to the 'Import' tab.
3. Choose the SQL file from the Gym folder and click 'Go' to import.

Step 5: Access the System

1. Open your web browser.
2. Type http://localhost/Gym/index.html in the address bar and press Enter.

You should now see the Gym Management System interface.
